Web Developer → Graphic Designer → Internet Marketing

(970) 462-9768 - [jwodke@outlook.com](mailto:jwodke@outlook.com)

I'm a jack of all trades when it comes to web development. For the past 4 years I have been doing Internet Marketing, Graphic Design and Web Development (2 years) for a company called Peak Studios.

However, for the last 18 months I have been putting in long hours in my free time learning full stack web development. This learning process has recently lead me to resign from the company I was doing internet marketing at and has given me the privilege of doing freelance web development for small businesses as well as running my own small internet marketing and web development company specializing in small business growth.

## EXPERIENCE

### **Peak Studios, Remote/Boulder, CO — Director of SEO**

Jan 1st, 2012 - July 15th 2016

I ran a small team whose tasks were to methodically analyze and increase the paid and organic SEO for numerous corporate franchises. Corporations include; Chem-Dry and N-Hance Revolutionary Wood Renewal. Being that Peak Studios is a small consultancy I had to fill a lot of positions to meet the demands of our clients. I truly enjoyed working with our clients and watching our marketing strategy help their businesses grow.
